About this litepaper

This is version 2 of the \$SENTX litepaper. It replaces version 1 from January 2024 and follows the \$SENTX rules published with it. Figures are as of 30 September 2026 unless another date is given.

The seven public rules

- 1 Supply limit p. 5
- 2 Ten-year release schedule p. 6
- 3 How rewards are paid p. 9
- 4 Every trade earns p. 8
- 5 Earned stays earned p. 8
- 6 Public record p. 12
- 7 Who holds the keys p. 12

2,000,000

Supply limit, the most SENTX that can ever exist

1,499,900

The most new SENTX that can be released, until September 2036

95%

Of every release is for user rewards

20%

Of the standard sale fee funds the buyback

When these rules apply

Everything in this version applies from the day it is published.

01 SENTX AND \$SENTX

A marketplace that rewards its users

SentX is an NFT marketplace and launchpad on the Hedera network. People buy, sell and mint NFTs on SentX, and creators launch their collections through it. \$SENTX is the token SentX uses to reward that activity.

You earn \$SENTX when you buy, sell or mint on SentX. Once it is claimable you can claim it to your wallet, then spend it in the Rewards Center, keep it, or trade it on SaucerSwap.

Token ID	0.0.2672057	Network	Hedera Token Service
Decimals	8	Purpose	Rewards token, earned by trading and minting on SentX
Sale	Never sold by SentX. There was no ICO or token sale	Created	May 2023, with 1,000,000 SENTX
Market	SaucerSwap V1, SENTX/HBAR pool 0.0.3301046	Supply limit	2,000,000 SENTX, last release in September 2036

Milestones

From the token's creation to the last release under the schedule

383,180 SENTX in existence on 30 September 2026	1,343 Accounts holding SENTX on 30 September 2026	508,745 SENTX earned by users since 2022	388,891 SENTX paid out through claims since August 2023
---	---	--	---

Source: Hedera record and SentX data, 30 September 2026.

02 HOW \$SENTX WORKS

From a trade to a claim

Every eligible trade and mint earns SENTX. The rewards claim wallet pays claims, funded first by SENTX that already exists and then by the year's release.

EARNING AND CLAIMING

FUNDED BY

- 1 Earn.** Trades, auctions and mints earn SENTX at the monthly rate. You see the estimated amount before you confirm.
- 2 Fund.** The buyback and the Rewards Center refill the claim wallet with existing SENTX. SentX reserves not set aside for anything else can also be used.
- 3 Release.** New SENTX from the year's rewards share covers the rest, only when claims need it.

03 SUPPLY AND THE LIMIT

2,000,000 is the supply limit

RULE 1 Supply limit

At most 1,499,900 more SENTX will ever be created, and the last release is in September 2036, so no more than 2,000,000 SENTX can ever exist. Burned SENTX is never replaced.

Where the limit sits inside the token setting

SENTX, on one scale

■ In existence on 30 September 2026 ■ Up to the supply limit ▨ Never used

2,000,000

Supply limit, the most SENTX that can ever exist

1,499,900

The most that can still be released, until September 2036

8,000,000

Room in the token setting that will never be used

Why Hedera shows 10,000,000

When \$SENTX was created, its maximum supply setting on Hedera was set to 10,000,000. Hedera does not allow that setting to change, so it will keep showing 10,000,000. The supply of SENTX will never go above 2,000,000. This limit replaces the 2024 rule under which more SENTX was released whenever a SentX wallet ran out.

Supply now

On 30 September 2026, 383,180 SENTX existed, held by 1,343 accounts. From 1 October 2026, new SENTX can only come from the ten-year release schedule on the next page.

383,180

SENTX in existence on 30 September 2026

1,343

Accounts holding SENTX on 30 September 2026

1 Oct 2026

Start of the first release year

04 RELEASE SCHEDULE

Ten yearly ceilings, lower every year

RULE 2 Ten-year release schedule

New SENTX is released under a published schedule with a ceiling for each year, lower every year, and no month releases more than one twelfth of that year's ceiling. Of each release, 95% is for user rewards, 3% for development and marketing and 2% for the team. The development, marketing and team shares are released monthly through the year. The rewards share is created only when it is needed to pay claims, and whatever a month does not use is cancelled at the end of that month.

Years run from October to September. Year 1 starts 1 October 2026.

■ User rewards 95% ■ Development and marketing 3% ■ Team 2%

New SENTX that can be released each year, by share

Development, marketing and team shares are released monthly. The rewards share is created only when claims need it, up to the month's limit; any unused part is cancelled at the end of each month.

240,000

Year 1 ceiling, October 2026 to September 2027

20,000

The most released in any month of Year 1, one twelfth of its ceiling

1,499,900

Across all ten years, the most that can be released

The schedule in numbers

Year	Period	Ceiling	Per month	Rewards 95%	Dev and marketing 3%	Team 2%
1	Oct 2026 to Sep 2027	240,000	20,000	228,000	7,200	4,800
2	Oct 2027 to Sep 2028	214,000	17,833	203,300	6,420	4,280
3	Oct 2028 to Sep 2029	190,000	15,833	180,500	5,700	3,800
4	Oct 2029 to Sep 2030	169,000	14,083	160,550	5,070	3,380
5	Oct 2030 to Sep 2031	151,000	12,583	143,450	4,530	3,020
6	Oct 2031 to Sep 2032	134,000	11,166	127,300	4,020	2,680
7	Oct 2032 to Sep 2033	119,000	9,916	113,050	3,570	2,380
8	Oct 2033 to Sep 2034	106,000	8,833	100,700	3,180	2,120
9	Oct 2034 to Sep 2035	94,000	7,833	89,300	2,820	1,880
10	Oct 2035 to Sep 2036	82,900	6,908	78,755	2,487	1,658
Ten years		1,499,900		1,424,905	44,997	29,998

Each figure is a ceiling, not a plan to create that amount. "Per month" is the most any month of that year can release (one twelfth of the ceiling, rounded down); what a month does not use is cancelled. No SENTX is released after September 2036. SentX may lower the schedule or end it early, and will never raise the 2,000,000 supply limit.

05 ALLOCATION 95% of every release is for users

■ User rewards	1,424,905
95% of every release	
■ Development and marketing	44,997
3%, released monthly	
■ Team	29,998
2%, released monthly	

The first 1,000,000 SENTX followed the same split under the 2024 litepaper: 30,000 for development and marketing and 20,000 for the team. From October 2026 both shares are released monthly through each year. In Year 1 that is 7,200 SENTX for development and marketing (600 a month) and 4,800 for the team (400 a month).

2% of each release goes to the team and is shared among the current team members. The team members have agreed not to sell their SENTX until the SaucerSwap pool holds \$100,000.

06

EARNING AND CLAIMING

Every trade and mint earns

RULE 4 Every trade earns

Every eligible trade and mint earns SENTX, and you see the estimated amount before you confirm. The rate is 0.0005 SENTX per HBAR for each side of a trade. If it is ever needed to keep rewards within what the program can fund, SentX may adjust it between 0.00025 and 0.001 SENTX per HBAR, and announces a new rate on the \$SENTX page before it applies.

Reward rates

Sales and auctions pay each side; mints pay the minter.

Sale priced in SENTX

as for a marketplace sale

● 0.005 SENTX per SENTX

The rate stays at 0.0005 unless a change is needed; any change stays within the range above and is announced first. The current rate is always on the \$SENTX page and is shown before you confirm a trade.

RULE 5 Earned stays earned

SENTX you have earned stays yours to claim. It becomes claimable 2 days after you earn it.

Boosts

Your boost is applied when you claim, based on the boost items you have staked at that moment, up to +30%. It applies to all claimable SENTX, including LP rewards.

Claim limit and support

Each claim can be up to 750 SENTX, boost included. If your balance is larger, contact SentX support and the balance is paid after a review. Claims are paid from the rewards claim wallet.

RULE 3 How rewards are paid

Claims are paid first from SENTX that already exists: SENTX the buyback buys for claims and LP rewards, SENTX spent in the Rewards Center and SentX reserves not set aside for anything else. New SENTX from the year's rewards share covers the rest.

Rewards earned and claimed each year

SENTX. Claims opened in August 2023. Both figures include LP rewards.

■ Earned ■ Claimed

Source: SentX data, 30 September 2026.

508,745

SENTX earned since the first rewards in 2022

388,891

SENTX paid through claims since August 2023

About 76%

Of all SENTX earned has been claimed so far

Rewards Center

You can spend SENTX in the Rewards Center at sentx.io/rewards/center, for example on boost items. SENTX spent there goes to the Rewards Center wallet. SENTX spent in the Rewards Center is reused to pay rewards, which means less new SENTX has to be created.

The earlier Rewards Center burn

In August 2025 SentX said half of the SENTX spent in the Rewards Center would be burned. That burn was not carried out. SentX burns 6,839 SENTX once, half of the 13,678 spent in the Rewards Center, and lists the burn on the \$SENTX page.

13,678

SENTX spent in the Rewards Center since August 2025

6,839

SENTX burned once, half of what was spent there

100%

Of SENTX spent there is reused to pay rewards

07 THE BUYBACK

Part of every marketplace fee buys SENTX

A standard marketplace sale pays a 2% fee. 20% of that fee goes to the buyback, which is 0.4% of the sale price.

The rest of the fee goes to RevShare (12.5%) and to SentX (67.5%). Affiliate and Hashinal sales do not fund the buyback. The buyback uses its HBAR to buy SENTX in the SaucerSwap pool and uses it in four ways.

Split of the 2% fee on a standard sale

How the buyback's HBAR is used

How each buyback run splits its HBAR.

- 50% Buy for claims**
 SENTX bought with this part moves to the rewards claim wallet and pays user claims.
- 21.5% Buy and burn**
 Set aside and then burned on Hedera. A burn counts once Hedera confirms it.
- 21.5% Buy for LP rewards**
 Shared among staked SENTX/HBAR LP positions, in proportion to their stake.
- 7% Pool liquidity**
 SentX adds this part to the SENTX/HBAR pool as SentX-owned liquidity.

54,867 HBAR used by the buyback to buy SENTX	25,994 SENTX bought	11,876 SENTX credited to LP stakers	2,175 SENTX added to the pool, with 4,535 HBAR
--	-------------------------------	---	--

The buyback from May to 30 September 2026, under the earlier split. Source: SentX data and the Hedera record.

How often it runs

The buyback runs about every 6 hours. Every burn is a Hedera transaction and is listed on the \$SENTX page with a link to it. SentX started the buyback and LP rewards program on 15 August 2025, on an earlier engine. The current six-hourly buyback started in May 2026.

When the burn share can change

When the SENTX held to pay claims falls below SentX's target, the burn share can be reduced or moved to claims. The shares may change going forward, as set out in the rewards terms.

08

LIQUIDITY

The SENTX/HBAR pool

\$SENTX trades in the SENTX/HBAR pool on SaucerSwap V1, pool **0.0.3301046**. The pool is small, so a large trade moves the price.

The buyback adds SentX-owned liquidity to this pool. SentX's own LP positions do not receive LP rewards.

- Add liquidity to the pool and stake your LP tokens in the SaucerSwap farm. Only staked LP tokens earn a share of the buyback.
- Each buyback run shares its LP reward portion among staked positions in proportion to their stake.
- LPs also earn SaucerSwap trading fees.

1

Add liquidity

Deposit SENTX and HBAR in the SENTX/HBAR pool on SaucerSwap.

2

Stake in the farm

Stake your LP tokens in the SaucerSwap farm. Only staked LP tokens count.

3

Receive LP rewards

Each buyback run shares its LP reward portion in proportion to your stake.

Source: Hedera record and SentX data, 30 September 2026.

09

KEYS, TRANSPARENCY AND CHANGES

The keys and the public record

RULE 7 Who holds the keys

SentX holds the token's keys, as the operator of a rewards program. These limits are SentX's commitment to its users, and the public record lets anyone check them.

RULE 6 Public record

Every mint and burn from the publication date is recorded on Hedera. The newest are listed on the \$SENTX page with their transactions; the full history is on HashScan.

On the \$SENTX page

Current supply and where it sits

New SENTX this year, against the year's ceiling

Every mint and burn, with its transaction

Reward rates

The buyback by month, with SENTX bought and burned

SENTX earned and claimed, per month

Changes to the program

SentX may change the following going forward, as set out in the \$SENTX rewards terms:

- the reward rates and their range, and which activity earns SENTX
- the buyback's share of the fee and how it is split
- the burn share, and how SENTX spent in the Rewards Center is reused
- claim limits and how claims are processed
- the release schedule, which SentX may lower or end early

What does not change

SentX will not raise the 2,000,000 supply limit or release SENTX after September 2036.

Changes apply only from the day they take effect. SENTX you have already earned stays yours to claim.

How to check the record

1

Open the \$SENTX page

sentx.io/rewards/sentx-token lists the newest mints and burns.

2

Follow the transaction

Each entry links to its Hedera transaction, and HashScan holds the full history.

3

Compare with HashScan

Check the supply shown on the \$SENTX page against the token on HashScan.
